Building A Gun & Violence Control America

INTENTION -TO: Curtail Gun Violence and Mass-Gun-Violence In America.

Promote: Tougher Gun Regulations (In an effort to keep guns out of the hands of the criminally insane. Increase: Social Awareness & Active Involvement by Citizens, individuals or victims of Gun Violence.

TO: Use popular websites & introduce an automated National TollFree Hotline in which anyone can call in with a description of an insane act or potential act that could lead to criminal violence.

Make available online a public database containing coded rules or regulations for existing Gun owners. The database will include: Gun owners seeking to renew, obtain new licenses. And all owners of guns description of multiple layer learning processing and certification test results. The system (A communications & Network Grid) will have developed Gun Ownership Licensing Timeline in which will include test results, gun-self-awareness psychological permits issuance, sections & subsections detailing predictive dialogue by points based on number of data-Hits from the National Tollfree Hotline, Texts and registered national security data.

MetroCommuteSecurity.com: Set up a social auxiliary to correspond with response to alerts the database triggers - The auxiliary will act on cases/individuals triggered by an artificial intelligent voice automated system similar to serious from the iphone. The auxiliary will also act as Marshal to the arrest and monitoring of the psychologically impaired and to ratify the publics presumption of a psychologically impaired.
